WHY AN ULTIM CHAMPION?

Choose the unbeaten Champion!

Of all the trampolines, the best jumps are made on the BERG Ultim Champion FlatGround. This trampoline is specially designed for learning and performing the coolest and newest tricks. This large trampoline (4.1 x 2.5m) offers an enormous amount of jumping space. Just like Olympic trampolines, this Ultim Champion is rectangular. This means that you can make superfine jumps across the entire length and width of the trampoline. A rectangular trampoline also gives you more control over the jumps that you make.

The AirFlow jumping mat and the TwinSpring springs ensure that you can make extra high and supple jumps. The Ultim Champion has been designed with care, resulting in a very safe trampoline.

In this productsheet you can find information about:

1. The rectangular shape
2. The protective edge
3. The jump mat
4. The springs
5. The frame
6. Safety Net DLX XL

WARRANTY

Frame: 13 years*

Protective edge: 2 years

Jumping mat: 2 years

Springs: 5 years

* On registration at bergtoys.com/registration

In this productsheet: Model, size and colour subject to change. Printing and typesetting errors reserved.

BERGTOYS.COM

1. THE RECTANGULAR SHAPE

On a rectangular trampoline you can jump over the entire length. The jumps that you make on a rectangular trampoline are more controlled. That's why rectangular trampolines are used by top performers at the Olympic Games.

2. PVC PROTECTIVE EDGE

3. AIRFLOW

Higher jumps mean more fun. We have developed the AirFlow technique to enable you to make higher jumps. This jumping mat allows 50% more air permeation compared with a standard jumping mat. Good airflow ensures less resistance while jumping, which is why you can make higher jumps.

The jumping mat of the Ultim Champion has a large overlap over the springs with a special band sewn onto it to prevent it from curling up.

The jumping mat has springs with large welded eyelets and a wide band.

50% more air permeation for better jumping comfort.

AIRFLOW
Higher & more flexible jumping.

POWERED BY
AIRFLOW
& TWINSRING

The AirFlow product innovation is only available on the BERG Champion and BERG Elite lines.

BERGTOYS.COM

Special padding band holders to keep tension on the band for this long rectangular padding.

The FlatGround trampoline has a special noise-reducing strap underneath the protective edge. This prevents the protective edge from rattling against the jumping mat and enables you to make super quiet jumps.

4. TWINSRING GOLD

The perfect jump area is that optimal part of the jump mat which results in the best jump experience. Jumping outside of this area results in a sense of feeling as if you are being pushed towards the inner part of the trampoline. Trampolines comprising of TwinSpring Gold Springs are mounted in the shape of a "V". This allows for a larger perfect jump area compared to trampolines that are sold with a conventional spring.

Another advantage? Due to the angled positioning of the TwinSpring Gold, the springs are longer in length without compromising the size of the jump mat. This results in a safer trampoline that optimizes jumping pleasure!

5. FRAME

The patented, rectangular Ultim Champion frame has a very strong profile of 120x60x2mm. The top rail elements are firmly connected by 4 bolts. The solid frame does not move, creak or squeak.

The frame of the Regular and FlatGround is modular because the top rail is the same. The W-legs are separate elements, which makes transportation easier. Please refer to the table at the back of this product sheet for all tube/top rail diameters and step-on height.

The frame blocks the sand from entering the pit.

Extremely heavy duty frame.

The frame segments are joined together by four bolts and nuts at each transition to ensure a solid and noiseless construction.

22% XL

HIGHER & SAFER

Extra rustproof.

More attractive due to black powder coating.

6. SAFETY NET DLX XL

The Safety Net Deluxe XL is extra high (220 cm). This makes the net extra safe. The high opening makes it easy to access the trampoline.

22% XL

**HIGHER
& SAFER**

Extra safe due to the thick layer of foam around the Safety Net poles.

The pole sleeve has a long split that can be closed with a strip of Velcro.

The Safety Net pole is attached to the clamp with an extra-long weld. The pole is therefore extra strong.

The poles are equipped with sturdy clamps that are easy to assemble on both the Regular and the FlatGround trampoline.

Extremely safe, self-closing entrance with distinctive trim.

The unique, rectangular-shaped hoop at the top of the Safety Net keeps the net nice and taut.

The top caps of this trampoline connect the hoop to the poles. The caps have an easy click system and are therefore easy to attach.

The robust, curved poles provide more space between the Safety Net and the pole and therefore provide extra safety.

Having the net attached to the outer edge of the padding creates a larger jumping surface.

High-quality, dimensionally stable netting that feels soft to the touch.

BERG ULTIM CHAMPION

Choose the unbeaten Champion!

BERG Regular + Safety Net ● ●

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

BERG FlatGround + Safety Net ● ●

A FlatGround trampoline integrates seamlessly with your garden. This is because the protective edge of the trampoline is completely level with the garden. This ensures a very easy step-on. The Safety Net ensures that every user can jump safely.

BERG FlatGround ● ● **SPORTS**

A FlatGround trampoline integrates seamlessly with your garden. This is because the protective edge of the trampoline is completely level with the garden. This makes the trampoline unobtrusive and very easy to step onto.
