*Learn & develop with infinite fun* 

# WHY A LEVELS TRAMPOLINE?

Choose for infinite fun!

The BERG Levels trampolines are developed in collaboration with primary school teachers. This resulted in an innovative game that encourages children to learn and develop in a fun way. Children enjoy playing together, but jumping with more than one person at the same time on a trampoline is not advisable. The BERG Levels game provides a way for children to play together with one child at a time on the trampoline and one or more outside the trampoline using the game balls. Children can play the game together or alone and improve their jumping techniques, memory and math skills. From fun basic games to a challenging training.

The BERG Levels trampolines are equipped with three soft foam balls and a life-size board on the trampoline for active play in every garden.

In this productsheet you can find information about:

- The extras
- The Levels games

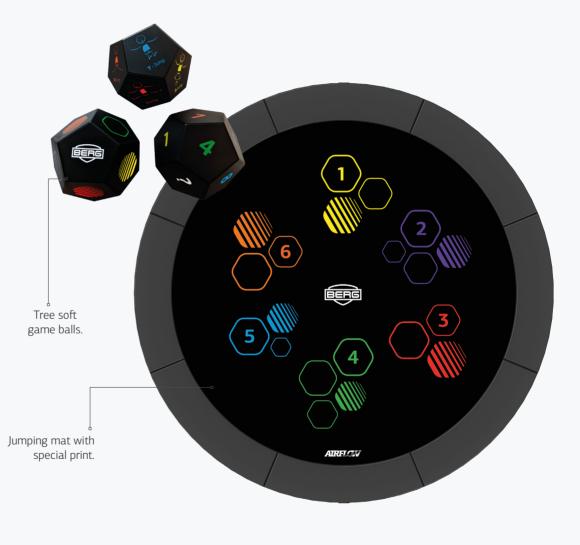

# **1. THE EXTRAS**

The BERG Levels trampoline has a jumping mat with a special print. The bright colors on the jumping mat and the game balls gives the trampoline a playfull appearance.

BERG has developed three unique game balls with their own individual print. These three different game balls are the key to endlessly creating new games. The three game balls are made of water-reppelent "closed cell foam" and the soft foam is user-friendly.

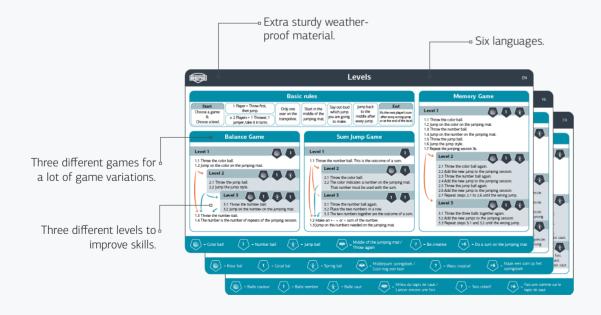

## 2. THE LEVELS GAMES

The BERG Levels trampolines are developed to play infinite games with. To stimulate children to learn and develop with infinite fun, BERG added an educational element to the BERG Levels trampolines. To achieve this, BERG has collaborated with primary school teachers. This resulted in three games with different levels:

- Balance game (The better the balance, the better the jumps)
- Sum jump game (Playfully learn numbers and maths)
- Memory game (Train the brain in a fun way)

# **BERG LEVELS TRAMPOLINES**

Choose for infinite fun!

#### BERG Regular Trampoline

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around and is also clearly visible in your garden.

#### BERG InGround Trampoline

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.
