All sizes of the Favorit line are equipped with these springs. That's why you can make nice jumps on all these trampolines. The jumping comfort of these trampolines is much higher compared to the earlier BERG Talent line with GoldSpring Talent springs.

5. FRAME

The Grand Favorit has a solid frame of strong tubes with a substantial tube thickness. The frame is highly rust-resistant caused by the special double coating on the tube. The frame is easy to assemble.

The new top rail design offers extra strength, stability and longevity of the frame.

Only with the black Favorits the frame legs are galvanized and additionally black powder coated.
