WHY AN ULTIM CHAMPION?

Choose the unbeaten Champion!

The BERG Ultim has been developed with great attention and care. This resulted in a qualitative excellent trampoline, which is safe to use. It does not matter which one you choose, you choose quality with a BERG Ultim Champion. The BERG Ultim Champion is cleverly designed for long and safe jumping. The combination of the TwinSpring Gold springs and the AirFlow jumping technique ensures less air resistance, a larger jump area and more jumping fun!

In this productsheet you can find information about:

1. The rectangular shape
2. The protective edge
3. The jump mat
4. The springs
5. The frame
6. The Safety Net Deluxe

WARRANTY

Frame: 13 years*

Protective edge: 2 years

Jumping mat: 2 years

Springs: 5 years

* On registration at bergtoys.com/registration

In this productsheet: Model, size and colour subject to change. Printing and typesetting errors reserved.

1. THE RECTANGULAR SHAPE

On a rectangular trampoline you can jump over the entire length. The jumps that you make on a rectangular trampoline are more controlled. That's why rectangular trampolines are used by top performers at the Olympic Games. The shape ensures that the trampoline fits perfectly in almost any garden.

2. PROTECTIVE EDGE

3. AIRFLOW

Higher jumps mean more fun. We have developed the AirFlow technique to enable you to make higher jumps. This jumping mat allows 50% more air permeation compared with a standard jumping mat. Good AirFlow ensures less resistance while jumping, which is why you can make higher jumps.

The durable AirFlow jump mat is made from woven polypropylene. The jump mat contains special spring-eyes for the TwinSpring system. The loops for the strong metal spring eyes are thoroughly joined to the jump mat with no less than 8 rows of stitching.

POWERED BY
AIRFLOW
& TWINSRING

The AirFlow product innovation is only available on the BERG Champion and BERG Elite lines.

50% more air permeation
for better jumping comfort.

AIRFLOW
Higher & more flexible
jumping.

4. TWINSRING GOLD

The perfect jump area is that optimal part of the jump mat which results in the best jump experience. Jumping outside of this area results in a sense of feeling as if you are being pushed towards the inner part of the trampoline. Trampolines comprising of TwinSpring Gold Springs are mounted in the shape of a "V". This allows for larger perfect jump area compared to trampolines that are sold with a conventional spring.

Another advantage? Due to the angled positioning of the TwinSpring Gold, the springs are longer in length without compromising the size of the jump mat. This results in a safer trampoline that optimizes playing pleasure!

5. FRAME

The Ultim Champion has a solid frame of strong tubes with a substantial tube thickness. The frame is highly rust-resistant caused by the special double coating on the tube. The tubes are first provided with a durable zinc-layer and then covered with a beautiful black powder coating layer. The frame is easy to assemble.

The Ultim Champion has a strong socket of Ø42 mm.

6. SAFETY NET DELUXE

BERG **ULTIM** CHAMPION

Choose the unbeaten Champion!

BERG Regular + Safety Net ● ●

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

BERG InGround + Safety Net ● ●

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.

BERG InGround (Sports) ● ● **SPORTS**

The sunken trampoline without safety net (sports) is nicely concealed in your garden. The low threshold of 27 centimetres makes the trampoline easy and safe to step onto.
