

## Accessories

Our trampoline accessories are specially designed to jump with even more fun and safety for everyone!

A ladder helps children to easily go on and off our above ground trampolines.

Ladder

With a safety net you don't need to worry anymore about unexpected falls. The net falls in the middle of the safety pad to that nobody can slip in between.

Safety net

An Avyna weather cover extends the lifetime of your trampoline.

Weather cover

## Bounce board

With a Bounce Board it seems like you're on a snowboard or skateboard, while you're on a trampoline. A great tool to improve your skills.

## Tent

How nice is it to transform your trampoline into your own tent! Our trampoline tent is easy to assemble and to open and close. Our tents also fit on our InGround trampolines.

## Anchor set

With an anchor set you can assemble and fasten the trampoline so that it resists almost all weather conditions. The anchors are suitable for any type of (artificial) grass.

### Avyna = Safety First!

Avyna, founded in 1999, is specialized in designing and producing safe trampolines, trampoline parts and accessories.

In addition to trampolines, we also sell self-designed inflatables, plus football and hockey goals. Our office and warehouse is located in Rijen and we have our own factory in Vietnam. The advantage of having our own factory is being able to control the entire process and to supply individual parts at all times. On the frame of an Avyna trampoline we always provide a lifetime warranty.

Our Avyna springs include a ten-year warranty, and on our safety pads we give two up to five years warranty.

Avyna trampolines are sold worldwide and comply with all 1176-1: 2017 and 7114-19 requirements.

## Buy a trampoline

Choosing the right (garden) trampoline is a matter of answering some questions. What size do I want and what shape fits best in my garden? Do I want rectangular or round?

An InGround or FlatLevel trampoline becomes a fixed part of the garden. An above ground trampoline is easy to move. Whilst one with folding legs will be very easy to store.

Whichever trampoline you choose, go for extra safety and buy a safety net as well.

## Fitness trampoline

Jumping on a fitness trampoline doesn't feel like a workout, but in reality you use almost all of your muscles. 10 minutes jumping on a trampoline is equivalent to running for half an hour. The elastics ensure that it is less stressful for your muscles and joints.

## Parts - Jumping Mat

Our jumping mats are made of woven polypropylene and are highly permeable, allowing more air to pass through, which ensures more jumping pleasure! Avyna trampoline mats are also available as spare parts.

## Parts - Safety pad

Avyna safety pads are extra safe due to the unique three-point connection. This keeps the pads tight and fully covers the springs. All pads are made of weather resistant woven polyester and are designed so that rain will slide off. We offer three special colors.

Green

Grey

Camouflage

## Parts - Springs

The inside and outside of all our springs are completely hot dip galvanized so that the formation of rust is excluded.

The springs are available as spare parts or as a complete set.

For the round trampoline you could select the following types:

- **The standard version** developed for safety and is suitable for young and old
- **The sport version** for everyone who wants to get more action out of their trampoline
- **The extreme sport version** for the advanced jumper who wants to practice some spectacular "jumps".

## Inflatables

### Want to buy an inflatable?

We offer various inflatables from our brand Happy Bounce. Whether you choose a castle with an obstacle course, slide, climbing slope, ball pit and/or basketball net, Avyna has it all!

Every parent knows that if there's a bouncy castle at a party or event, kids immediately take off their shoes and you don't have to worry about them anymore. How nice is it put this inflatable in your own garden for hours of fun!

**Avyna inflatables are for private use only.**

## Goals

With the football and hockey goals from Avyna you transform any garden into a real playground. We have an aluminium and a galvanized line.
