

PROFESSIONAL 2021

BERG offers your company opportunities

BERG Family bikes, go-karts and trampolines are robust and constructed to a high quality. Low investment costs and low maintenance requirements make BERG Products very attractive to the leisure sector around the world. In addition, our products are rigorously tested for safety.

BERG’s eye-catching products offer a unique experience around the world. For companies in the recreational market they are invaluable. Examples of locations where our products can be used are campsites, promenades, shopping centres, theme parks, commercial playgrounds and public parks. In short, BERG offers interesting opportunities for you!

BERG Testimonials: The experience of our partners

“BYKY started a rental station in 2005 with a number of BERG Go-karts on the beach. The people were very enthusiastic and demand was high! This encouraged us to set up more rental stations.”

Dubai:
**BYKY Sport & Leisure
Equipment**

“In recent years, we have achieved approximately 2,000 rental hours in the peak season. The tourists and the people in the neighbourhood love BERG Go-karts, but also BERG Trampolines!”

Norway:
**Motorikpark &
rental campsite**

BERG's service

1. Marketing and promotional materials

Use promotional materials in the right way to further increase your sales. BERG will be pleased to help and has various marketing and promotional materials available for you. These materials include displays, beach flags, key rings, pens and footballs. We also have a go-kart track available. Ask your contact person for the current product range.

2. Media bank

BERG has a media bank with images and videos. This media bank contains all the product information, images and videos that you need to communicate with your target group.

3. Expert support

Our Sales Managers have extensive experience with the market and can give you some handy tips when starting up your own company or when placing BERG Products on the market.

4. Warranty

A warranty period of 1 year for the frame and parts applies to BERG Products for the rental market. The warranty does not cover wear parts.

”

Campsites

Campsites are ideal places to offer a unique experience with BERG Go-karts or Trampolines without having to make a large investment. It could also generate a nice income for you.

- ✓ Rent out go-karts per day or per week
- ✓ Ideal for riding freely around the campsite or park
- ✓ Low maintenance and lots of fun

You can easily offer a unique experience on promenades or in other public places with BERG Go-karts and Trampolines. These products can easily be rented out for short periods of 15-60 minutes for some amazing fun.

- ✓ Purchase possible from 1 product
- ✓ High return on investment
- ✓ Quick cash flow

Promenades and parks

Theme parks

You can offer BERG Go-karts or Trampolines as an extra valuable attraction for your park. In short, BERG Go-karts and Trampolines offer many possibilities, resulting in income for you.

- ✓ Extra attraction for your park
- ✓ Ideal for cordoned off areas
- ✓ BERG Products retain their value

Would you like to offer entertainment in a shopping centre? Purchasing BERG Products can be as elaborate or as simple as your space, budget and needs allow.

- ✓ A unique experience for your visitors
- ✓ Purchase possible in combination with the BERG Go-kart track
- ✓ Earn your investment back in just a few weeks

Shopping centres

Investment & return

BERG Products offer your guests - young and old - a fantastic, active and, often, an entirely new experience! In addition, you will realise a quick return on your investment.

Start-up costs

There are various start-up options. Various products are available for every location and every purpose. Starting your own rental station with BERG Products requires a modest investment. The products last for many years and require little maintenance. In short, this is a smart investment.

Rental example:

Below you will find some calculation examples for the rental of BERG Products. The purchase price is not included in these calculations.

| Model | Rental price | | Expected sales 30 hours x 20 weeks * | Average maintenance costs | Average income** |
|--------------------|--------------|---------|---|---------------------------|------------------|
| | 60 min. | 30 min. | | per year | per year |
| 1 BERG Gran Tour | € 10 | € 6 | € 7.200 | € 50 | € 7.150 |
| 1 BERG X-Cross | € 7 | € 5 | € 6.000 | € 40 | € 5.960 |
| 1 BERG Buddy Pro | € 5 | € 3 | € 3.600 | € 40 | € 3.560 |
| 1 BERG Beach wagon | € 3 | € 2 | € 2.400 | € 10 | € 2.390 |
| | 20 min. | 10 min. | 30 ours x 20 weeks * | year | year |
| 1 BERG Eite | € 3 | € 2 | € 7.200 | € 15 | € 7.185 |

* based on rental price of 30/10 min

1 Limited investment

- 5-7 small go-karts
- 6-10 large go-karts
- 2-4 family bikes

Gross investment:
€8,000 – €10,000**

2 Excellent income

- Suitable for various business opportunities
- Return on investment: 1 season

Average profit:
€4,000 – €9,000 per year**

3 Low maintenance costs

- Fewer wear parts means fewer replacements

Annual investment:
+/- 5% of total investment per year**

4 Good residual value

- Go-karts usable for 3-5 years
- Sell the go-karts at a discount after 2-3 seasons for extra profit
- Keep your product range up to date

Extra profit from old go-karts:
25% - 60%**

** According to our own research in 2016

Frame explanation

The large BERG Go-karts (5+/6+), are available with four different frames. You can choose for a standard system, a frame with three gears, an extra long frame or an electrically assisted frame.

XL Frame BFR

All XL-platform go-karts have a BFR system. BFR stands for: Brake, Freewheel and Reverse. The BFR system allows you to brake using the pedals, but also reverse immediately after coming to a standstill. In addition, the freewheel ensures that the pedals remain stationary while the wheels are turning. This combination of techniques ensures safety at all times when driving on your go-kart.

XXL Frame BFR

Thanks to the BERG XXL-BFR Frame, go-karting for taller people is even more fun! The XXL-BFR frame has the standard BFR system, but with a reinforced and extended frame. The main difference is that the XXL Frame has two extra positions at the back of the frame, so there are eight different positions instead of six. This ensures that taller people can sit better and more comfortably in the go-kart.

XXL Frame E-BFR

The E-BFR Frame is a frame for children age 6 and up. The E-BFR frame is electrically assisted: the harder you pedal, the more assistance you will get from the motor. The extra large frame and the two extra seat positions make the go-kart suitable for both children and adults.

- ✓ The harder you pedal, the more support you will get from the centre motor with torque sensor
- ✓ The E-Frame is based on the (specifications) of the XXL frame, therefore suitable as well for taller people
- ✓ Adjustable seat with 8 positions so that children and adults alike can drive around on this go-kart
- ✓ System voltage: 24V
- ✓ Unique BFR system allowing the user to brake and when stationary pedal backwards
- ✓ Maximum speed: 16 km/h
- ✓ Good for at least 6-8 hours of riding pleasure*
*under ideal circumstances

| BERG Elite InGround Grey 380 | 37.52.03.00 |
| BERG Elite InGround Grey 430 | 37.54.03.00 |

High-end glossy finish

The high quality and the UV blockers make the protective edge extremely UV resistant. As a result, discolouration of the protective edge is minimised and it remains attractive for many years

Due to the diagonally placed TwinSpring Gold springs you can make better and safer jumps over the entire trampoline.

The AirFlow jumping mat allows 50% more air permeation. This ensures less resistance while jumping, which is why you can make higher jumps.

Made of the best material so that the protective edge is perfectly protected from the sun. The protective edge is suitable for intensive use and is extra safe.

The net, which is attached to the protective edge, prevents children, animals and toys from getting under the trampoline.

BERG Elite FlatGround ●

| Model | Art. |
|--------------------------------|-------------|
| BERG Elite FlatGround Grey 330 | 38.31.03.00 |
| BERG Elite FlatGround Grey 380 | 38.32.03.00 |
| BERG Elite FlatGround Grey 430 | 38.34.03.00 |

The Elite FlatGround has a special noise-reducing strap underneath the padding. This prevents the padding from rattling against the jumping mat and enables you to make quite jumps.

Due to the diagonally placed TwinSpring Gold springs you can make better and safer jumps over the entire trampoline.

The AirFlow jumping mat allows 50% more air permeation. This ensures less resistance while jumping, which is why you can make higher jumps.

Made of the best material so that the protective edge is perfectly protected from the sun. The protective edge is suitable for intensive use and is extra safe.

The rectangular tubular frame is very strong and of high quality. As a result, the trampoline remains stationary and noiseless.

Trampolines

The net, which is attached to the protective edge, prevents children, animals and toys from getting under the trampoline

BERG Grand Elite InGround

Art. 30.43.25.30

The protective edge is extremely UV resistant and remains attractive for many years

High-end glossy finish

Due to the diagonally placed TwinSpring Gold springs you can make better and safer jumps over the entire trampoline.

The AirFlow jumping mat allows 50% more air permeation. This ensures less resistance while jumping, which is why you can make higher jumps.

Made of the best material so that the protective edge is perfectly protected from the sun. The protective edge is suitable for intensive use and is extra safe.

The oval shape combines the efficient strength of a round frame with the large jumping surface of a rectangular trampoline.

BERG Ultim Elite FlatGround ● ●

| Model | Art. |
|---------------------------------------|-------------|
| BERG Ultim Elite FlatGround Black 500 | 32.41.25.41 |
| BERG Ultim Elite FlatGround Grey 500 | 32.41.25.31 |

The gapless protective edge consists of one continuous piece of foam. This ensures complete protection of the springs and the frame

The FlatGround trampoline has a special noise-reducing strap underneath the protective edge. This prevents the protective edge from rattling against the jumping mat and enables you to make super quiet jumps

The rectangular tubular frame is very strong and of high quality. As a result, the trampoline remains stationary and noiseless

The patented frame is easy to assemble and install

Due to the diagonally placed TwinSpring Gold springs you can make better and safer jumps over the entire trampoline.

The AirFlow jumping mat allows 50% more air permeation. This ensures less resistance while jumping, which is why you can make higher jumps.

Made of the best material so that the protective edge is perfectly protected from the sun. The protective edge is suitable for intensive use and is extra safe.

Its shape ensures that you can make nice jumps across the entire length of the trampoline and that it fits perfectly in your garden.
